MANUAL CUTTING WITHOUT COMPROMISE

STRONG TRIM

Is at the top of the manual cutters range in terms of robustness and performance.

Thanks to its professional cutting head to and the availability of cutting widths up to 2.3 meters, it can work everyday on high-thicknesses, becoming the manual cutting system without compromise for display graphics professionals and exhibition builders.

OPTIONS / ACCESSORIES

Among the options available are the reel-holder, the lamp for lighting the cutting area and the sheet-holder bar.

MAIN FEATURES

Strong Trim is equipped with a cutting head with dual rotating blade in hardened steel, a fixed blade in painted stainless steel mounted on a rectangular sliding bar.

The reinforced cutting table painted with epoxy powder guarantees the maximum resistance to cuts and scratches. The sturdy carriage moving on bearings and the bidirectional cutting capability further increase power and versatility.

The cutting thickness up to 4.5 mm allows you to easily trim corrugated cardboard, plastics, foams, compact board, sandwiches and many more flexible and rigid materials.

The standard version includes a stand for ground positioning, adjustable squares and a container for the collection of waste.

Datasheet	130	180	230
